Create Your Own Beads Using Glass Rods and Fire

Learn the interesting art of flame-worked glass beads with instructor, Julie Lukosaitis of Madison, WI. This is a beginner's class, but if there are those with experience, Julie will work with you on new techniques.

Students will learn about the equipment used, about safety, and about the exciting process of forming glass beads. Julie believes the best reward as a teacher is seeing the joy her students feel with their own creativity and building their flame-working skills.

"Glass in the flame, transitioning from a solid to a liquid, working against gravity, while reading the heat in the glass can be challenging, but is extremely fun!" -Julie Lukosaitis.

Julie Lukosaitis is owner of Bedazzled by Julz, LLC. Bedazzled by Julz is a mobile torch studio that travels to other art studios in Wisconsin.
